

DROPS

VITAMIN D3

Why we need Vitamin D ?

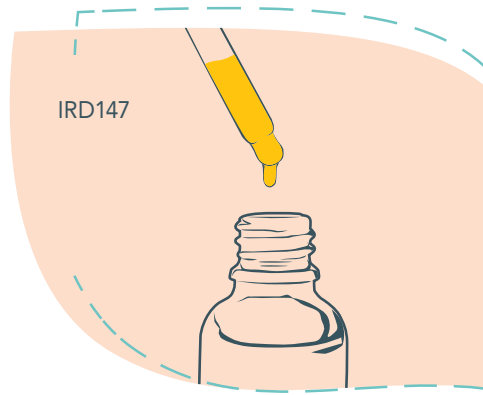

- ◆ Bone Health
- ◆ Immune System
- ◆ General Wellness

5 drops per day
◆ 25 µg of vitamin D per dose (500% RI)

Practical dropper format

To be taken pure or diluted in a drink

Vitamin D plays an essential role in our body. It boosts immunity and is necessary in the process of mineralisation of bone tissue*.

Our formula is composed of only two ingredients: vitamin D from a vegetable source and olive oil. As vitamin D is a fat-soluble vitamin, its assimilation is improved in the presence of a fat.

The essentials for a boosted immunity and strong bones in just a few drops!

**Vitamin D contributes to the normal function of the immune system, to normal absorption of calcium and to the maintenance of normal bones*
